PROJECTS

REACT WEATHER APP

A React Weather App built with HTML, CSS, JavaScript, and Bootstrap, utilizing GitHub for version control, Editor, API for data retrieval, and hosted online for real-time weather updates.

GOOGLE WEATHER APP CLONE

A functional Google-inspired weather app crafted with HTML, CSS, JavaScript, Bootstrap, and integrated with an Editor API for real-time weather data, version-controlled on GitHub, and hosted online for seamless access.

CULINARY TRAVEL WEBSITE

A responsive travel cuisine website, developed with HTML and CSS in VS Code, enhanced with Bootstrap for aesthetics, managed through GitHub for version control, and hosted to explore global culinary delights.
